

Siam M. Ashraful

1750 Walnut St, Halifax, NS | (902)-719-6391 | siamashraful@gmail.com | www.linkedin.com/in/siam-ashraful/

Profile

Computer Science graduate and Data Analyst at RBC with expertise in data lineage, risk assessment, and compliance reporting. Skilled in SQL, database management, and interpreting complex transformations, creating flow diagrams, risk mappings, and audit-ready documentation. Proficient in Python, Java, and web technologies, with additional experience in AI evaluation, troubleshooting, and data visualization. Strong team collaborator with Agile experience, effective in cross-team communication, documentation and stakeholder presentations. Recognized for consistently delivering accurate, high-quality work under tight deadlines, supporting audit readiness and regulatory compliance while adapting quickly to new tools and processes.

Education

B.S. IN COMPUTER SCIENCE | SEPTEMBER 2024 | DALHOUSIE UNIVERSITY, HALIFAX, NS

Professional Experience

DATA ANALYST | RBC - DATA TRACEABILITY & CONTROLS TEAM | MAY 2025 – PRESENT

- Collect and analyze data lineage for Critical Data Elements (CDEs), tracing flows across reporting, source, and origination systems to meet compliance and audit requirements.
- Collaborate with application custodians to validate database sources, ETL processes, and lineage records, leveraging SQL knowledge and understanding of COBOL logic to accurately interpret transformation rules.
- Consolidate lineage into detailed documents and build Visio flow diagrams highlighting data transformations, risk points, and controls for each CDE.
- Develop risk diagrams and mapping documents to identify, categorize, and communicate data-related risks before handoff to the Risk and Control Assessment team.
- Create and deliver presentation decks for report owners, providing detailed walkthroughs of data flows, transformations, and system interactions for audit readiness approval.
- Support lineage integration with RBC's metadata governance tool (Collibra), leveraging SharePoint, Confluence, ServiceNow, and Jira for documentation and collaboration.
- Operate in Agile sprints, contributing to daily standups, sprint planning, and sprint reviews to ensure timely delivery of high-priority compliance work.
- Provided feedback and bug documentation on a new internal efficiency tool designed to streamline lineage search and visualization, assisting in aligning future collection processes with the tool's capabilities.
- Consistently delivered projects within deadlines, contributing to the team's success in avoiding millions of dollars in potential regulatory fines and ensuring strong audit readiness.

TECHNICAL SUPPORT ASSOCIATE | TSX TRUST – NTT DATA | JANUARY 2024 – MAY 2025

- Delivered technical and account support to shareholders via phone and email, maintaining a QA score above 95%.
- Resolved login, registration, and navigation issues while assisting with account details, transaction history, and tax documents (T5, NR301, NR4, 1099DIV).
- Performed database lookups and maintained and updated shareholder records in the company database using the CARES (CRM) tool, ensuring accuracy and data integrity.
- Guided users through estate processing, sales, and compliance-related documentation, ensuring adherence to financial regulations.
- Collaborated with internal teams to resolve complex account issues, explaining technical and financial concepts in clear, accessible terms.

AI EVALUATOR (FREELANCER) | OUTLIER AI | SEPTEMBER 2024 – MAY 2025

- Evaluated Python and Java code outputs to assess AI model performance, identifying and resolving errors.
- Conducted multi-turn prompt engineering to detect and correct LLM failures in image recognition tasks.
- Analyzed LLM Extension integrations like Google Flights and Maps for accurate API usage and factual accuracy.
- Analyzed and validated structured datasets (CSV, JSON), applying programming and data analysis skills.
- Adapted quickly to shifting project needs, applying research, critical thinking, and clear written communication.
- Maintained a 4.5/5 performance rating with consistently positive feedback from Project Managers.

RESIDENCE FRONT DESK STAFF | DALHOUSIE UNIVERSITY | SEPTEMBER 2021 – MAY 2024

- Delivered frontline customer service, handling inquiries and maintenance requests.
- Logged daily residence incidence reports for official records, ensuring accurate and timely reporting to supervisors.
- Managed key inventory, lockout records, and mail/package distribution using Excel databases.
- Served as the first point of contact in emergencies, coordinating communication with first responders.

FACILITIES ASSISTANT | DALHOUSIE UNIVERSITY | MAY 2023 – SEPTEMBER 2023

- Coordinated residence room inspections and turnover during peak moving periods.
- Supported operational efficiency through maintenance assistance, administrative tasks, and work order logging.

Social Work Experience

VOLUNTEER | THE LOADED LADLE | JANUARY 2022 – DECEMBER 2022

- Supported community food security initiatives by managing inventory, preparing and serving meals, and contributing to outreach programs promoting sustainability.

VOLUNTEER | BANGLAR PATHSHALA | JANUARY 2018 – AUGUST 2019

- Collaborated on developing English curriculum for tuition-free schools, improving accessibility and student engagement.
- Organized fundraising events to provide school supplies and infrastructure, ensuring long-term program sustainability.

Skills & Abilities

- | | |
|--|---|
